XACTIV Inc. Announces Hiring of Business Manager

Fairport NY (April 14, 2014) – XACTIV Inc. announced the hiring of Ms. Holly Wood as Business Manager at their Fairport, NY facilities. In her new role Ms. Wood is responsible for finance, accounting, employee benefits, human resources, and payroll functions within the company. She previously was an office, accounting and human resource manager at several businesses in the Western NY area and is a business management graduate of Palm Beach Community College.

“We are very pleased that Ms. Wood joined our organization and we look forward to the inevitable improvements in efficiency and responsiveness to the employees she brings to the table” said Peter Mason, President of XACTIV.

XACTIV, founded in 2009, emerged from a prominent West-Coast digital printing technology development firm. XACTIV provides solutions to challenging 2-D and 3-D printing, material patterning, placement, and coating problems. XACTIV’s mission includes the manufacturing of the related active, application-specific, liquids and powder materials and as appropriate the finished converted product. XACTIV uses its printer development heritage to design reliable, cost-effective, and highly integrated medical, consumer and office electronic system products by providing not only design and development consulting but full product manufacturing services to our clients.

XACTIV’s strength is its world class staff of technology experts that have been responsible for generating nearly 1,000 patents and hundreds of technical papers and presentations. Today, XACTIV leverages the vast knowledge base of these “XACTIV Fellows”, leading universities researchers, and its full-time staff of experts to seek the most competitive solutions for its clients.
